This topographic map illustrates a residential development project. The map features contour lines indicating elevation, with labels ranging from 494 to 523. A central area is shaded with diagonal hatching, likely representing a water body or a specific land use. Several building footprints are shown, each with a unique hatching pattern. The map is divided into several sections by green lines, and various annotations are present:

- Red Annotations:** Multiple instances of "2004/1272" and "2006/628" are scattered across the map, indicating specific project phases or permits.
- Blue Annotation:** "2005/1274" is highlighted in a blue box near the bottom center.
- Yellow Circles:** Numbered yellow circles (1 through 16) are placed at various points on the map, possibly marking key locations or survey points.
- Black Annotations:** "T5", "S6", "T6", and "S5" are labeled near specific features or structures.
- Green Lines:** These lines delineate different areas or boundaries within the development.
- Topographic Features:** Contour lines and a central hatched area provide geographical context.

In the bottom right corner, the text "RUR" and "STATO DI PROGETTO" is visible, indicating the project's status and location.
